TeenNow California is teaming up with the Adolescent Health Collaborative to bring you "Relationship Violence: Creating Awareness Around a Growing Problem." Relationship violence is becoming more prevalent among teens, and many providers are unsure how to screen and intervene. This training is a must-have for any agency or staff person working with teens. Learn about the growing numbers of abusive teen relationships, reproductive coercion, and prevention strategies including screening, treatment, and the resources available to help victims in schools, health settings, and the community.

***About the trainers:***

**Helenann Hirsch** works with the California Women's Center as one of their attorneys. Helenann focuses on an array of legal issues impacting women and girls. Before coming to the CWLC, Ms. Hirsch worked in government at both the local, state and federal level. She was also an attorney in private practice, with an emphasis in employment law. She will present on topics relating to pregnant and parenting teens and will incorporate some of the legal issues regarding school responsibility to address teen dating violence.

**The Marjaree Mason Center** presents material from their kNOw MORE Teen Education Program. kNOw MORE was created as a forum for teens to speak to other teens, utilizing drama, music, real-life situations and statistics of abuse in teen relationships to demonstrate the seriousness of the problem.

**La Rhonda Crosby-Johnson** specializes in the areas of comprehensive sexuality education, adolescent development, parent education and women's wellness. La Rhonda has collaborated on the development of a number of health/sexuality education materials and curricula, as well as information on parenting.
